Giacomini Benelux NV

STATEMENT BY KIWA

This product certificate is based on BRL 5602 " Plastics piping systems of PE-RT for Heating installations: radiator connections" dated 25-10-2016, issued according to the Kiwa-Regulation for Certification.

The quality system and the product characteristics of this product are checked periodically. Based on this, Kiwa declares that there is legitimate confidence that:

Upon delivery, the product supplied by the certificate holder meets the requirements:

- Of the technical specifications laid down in this product certificate,
- The product requirements laid down both in this product certificate and in the BRL.

Provided the products are accompanied by the KOMO® quality mark in the manner set out in this product certificate.

Ron Scheepers

Kiwa

This product certificate is only valid in combination with a KOMO certified plastics piping system The certificate is listed in the overview on the website of Stichting KOMO: www.komo.nl. Advice: consult www.kiwa.nl in order to ensure that this certificate is still valid.

Metal Euroconus connectors

TECHNICAL SPECIFICATION

The products mentioned below belong to this technical approval-with-product certificate.

The following products are covered by this product certificate:

Design Size G3/4" - 16 x 2 mm

Type Straight adaptor coupling

thread end x compression end

Type/model

DesignTransition compression fitting R179EX027 1

Euroconus

Size

20 x 2 mm - G3/4"

Marking

The minimum required marking on the fittings shall be:

- KOMO (if not possible KOMO only on the smallest packaging);
- the manufacturer's name, trade name or logo;
- nominal outside diameter of the corresponding pipe;
- production code.

Location of the marks: on every fitting.

The realization of the marks is as follows: clear, durable and indelible.

The minimum required marking on the smallest packaging unit of the fittings shall be:

- KOMO (or KOMO® word mark);
- certificate number of the accompanying technical approval-with-product certificate of the piping system, according the marking of the belonging pipe;
- the manufacturer's name, trade name, system name or logo;
- material identification if the fitting body is made of plastics;
- nominal outside diameter and nominal wall thickness of the corresponding pipe in mm.

Location of the marks: on every package.

The realization of the marks is as follows: clear, durable and indelible on every packaging.

APPLICATION AND USE

The products are designed for drinking water installations with a lifetime of 50 years at an operating temperature profile according to class 4 of ISO 10508 and an allowable working pressure of maximum 6 bar.

TIPS FOR THE USER

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If on the basis of the foregoing you decide to proceed to rejection, please contact

Giacomini Benelux NV

And if necessary,

Kiwa Nederland B.V.

For the proper storage, transport and processing consult the instructions of the certificate holder.
